

How to use Moodio.fm to hear Mischke

Now you can listen to Mischke on your mobile device without downloading a program or paying for some subscription service! It's called Moodio.fm and it's a simple and free way to listen. Moodio.fm is a web browser-based provider of streaming media. Once you've set up an account (a short, easy process) and added at least one station, you can log in to your Moodio account from any smart phone that supports streaming audio. Models from makers such as BlackBerry, Nokia, Sony Ericsson, Samsung, Motorola, and the iPhone among others are supported.

Do the initial Moodio.fm account set up and first station selection on your computer. After that, you can use your phone.

- ON YOUR COMPUTER:
 - o Go to www.moodio.fm , create a new account and log in.
 - o Under the Stations link, search for "Mischke on citypages.com" and click ADD.
 - o "Mischke on citypages.com" will now appear in you're My Stations area.

Now that you've set up your Moodio account it's time to connect with your phone.

- ON NEWER PHONES SUCH AS THE 3RD GEN IPHONE AND BLACKBERRY STORM DO THE FOLLOWING:
 - o Open your phone's browser and go to Moodio's mobile site at <http://m.moodio.fm> and log in to your account.
 - o Under My Stations, click "Mischke on citypages.com" and your phone's media player should start playing the stream.
- ON OLDER PHONES THE ABOVE METHOD MAY NOT WORK. IF THAT'S THE CASE, DO THE FOLLOWING:
 - o Open your phone's browser and go to Moodio's regular site at www.moodio.fm and log in to your account.
 - o Under My Stations, click "Mischke on citypages.com"
 - o Click the "source stream URL" link and your phone's media player should start playing the stream.

A couple of things to bear in mind:

- Different phone models and manufacturers have different capabilities so this MAY NOT work on yours – sorry.
- You'll only hear Mischke if he's actually broadcasting - Monday through Friday from 2:00 pm to 4:00 pm Central Time.
- On most phones, playback will be interrupted if you get a phone call or some other alert while listening. Some phones just pause the stream and you may just have to push the play button to get it streaming again. On others you'll have to reconnect.
